**NAMEX EXPLORATIONS ANNOUNCES POSTPONEMENT OF ANNUAL AND SPECIAL MEETING OF SHAREHOLDERS**

NomeX Explorations Inc. announces that its Board of Directors has decided to postpone the annual and special meeting of shareholders, which was scheduled to take place today, to a later date to be determined by the Board of Directors. The decision of the Board of Directors to postpone the meeting of shareholders stems from the fact that management requires more time to solicit the votes of the “disinterested shareholders” on the resolution amending the stock option plan of the Corporation so that the number of options to be issued under the stock option plan be increase by 2,332,000 options to 5,662,000 options.

The Board of Directors and management of the Corporation believe that the increase in the number of shares reserved for issuance upon the exercise of options available under the plan is important and in the best interest of the Corporation and its shareholders. The grant of options is consistent with the objective of providing long term incentives to directors, executive officers, employees and consultants of the Corporation, and continuing to align their interests with that of shareholders of the Corporation. Moreover, the granting of options is the principal form of remuneration of management. The Corporation regrets any inconvenience this postponement of the annual and special meeting may cause.

NomeX is a Canadian junior that actively explores for platinum group metals, nickel, copper, gold, silver, zinc and lead exclusively in North America. For further information, see NomeX’s due diligence site: [www.nameX-explorations.com](http://www.nameX-explorations.com).
