

NEWS RELEASE

Advanced Explorations Inc. Corporate Update

TORONTO, April 13 /CNW/ - Advanced Explorations Inc. (the "Company" or "AEI") is pleased to provide an update of corporate activities. The Company has received conditional approval from the TSX Venture Exchange in respect to its recently announced definitive agreement on April 1st, 2009 that provides an option to acquire a 100% interest in its Roche Bay iron ore project. The Company is currently focused on securing a strategic partner to assist in the potential development of this project. While the Company is in advanced discussions in respect of a possible strategic financing, there can be no assurance that the transaction will be consummated.

John Gingerich, President & CEO of AEI, commented;

"We are encouraged by recent strategic financing announcements by companies in the iron ore sector demonstrating back integration and security of supply is still a priority of many global steel producers. AEI's recent simplification of its agreement with Roche Bay plc was an important step to advance its negotiations with potential Strategic Partners with the objective to ultimately move the project forward towards development. The economic study, expected to be completed shortly, is also a factor in these negotiations. "

The Company has recently announced results (March 12, 2009) from the Golder 43-101 compliant resource determination and is currently working with engineers to complete a preliminary economic assessment of the project based on the defined resource. The economic study is assessing a plan to produce a minimum 1 million tonnes per year of high quality (greater than 95% Fe) granulated pig iron. The recommendations of this report will be used to guide the Company's summer field program currently scheduled to start in June.

ON BEHALF OF THE BOARD

John Gingerich, President & CEO

ABOUT Advanced Explorations Inc.

Advanced Explorations Inc., based in Toronto, Ontario, is a mining exploration company focused on developing high quality iron ore opportunities. As part of this strategy, AEI acquired the option to earn a 100% ownership interest in the Roche Bay Magnetite Project located on the Melville Peninsula in Nunavut, Canada. Led by an experienced management team with technical, exploration and mining expertise the company has the capabilities to rapidly advance the Roche Bay Project and explore other local and global opportunities. Located proximal to a natural deep water harbour the Roche Bay deposit benefits from transportation efficiencies possibly making it one of the world's premium iron ore prospects. In 2008, AEI updated its business plan for the Roche Bay project and is examining moving forward from the traditional iron pellet operation to a granulated pig iron (nugget) business. Shares of the company trade at the TSX Venture Exchange (AXI) and at the Frankfurt Stock Exchange (AE6). For more information please visit www.advanced-exploration.com.
